Forecast for Saturday 23 Apr 2022

Weather: All parts will stay dry. Extensive mist and cloud on lower slopes of Monadhliath mountains and northern Cairngorms at first, erratically thinning and dispersing during the morning, before returning for the evening. Otherwise a bright day with plenty of sunshine further south across the area.

Chance of cloud-free hill tops above 800m: 70% becoming 90% during morning.

Low cloud and visibility: Poor visibility in north of area for a time in the morning and again for the evening, with cloud shrouding northern aspects, erratically thinning and dispersing. Otherwise very good visibility with patches of cloud forming about 800 to 900m.

Met Office Aberdeen Meteorologist's View

Continuing to feel bitterly cold over higher ridges and summits due to low temperatures combined with a strong, gusty wind. The wind making for difficult walking conditions with much buffeting.

Forecast for Sunday 24 Apr 2022

Weather: Once again extensive mist and low cloud in north of area at first, burning off during the morning. Otherwise another dry day with plenty of sunshine.

Maximum wind: Not quite as windy on the tops as recent days. East or northeast winds with average speeds of 20mph and gusts 35mph.

Chance of cloud-free hill tops above 800m: 50% in north at first otherwise 90%.

Low cloud and visibility: Extensive poor visibility in north at first with clouds well down the hills. This will lift and disperse during the morning leaving very good visibility across the area with occasional cloud cover developing about 800 to 900m.

Temperature: **Glens:** Plus 4 Celsius rising to 14 Celsius.
At 800m: Plus 3 Celsius rising to 6 Celsius.
Freezing level: Staying about 1400m.
